

MARCH 2010

Resident *Life*

A MONTHLY RESIDENT UPDATE

AMLI at Perimeter Place **60 Perimeter Center Place, Atlanta, GA 30346** **770.393.1217**

St Patrick's Day

A light heart lives the longest, so the Irish say. We're having a party to celebrate St. Patrick's Day! On **March 17th from 6:00- 8:00PM**, come and join the AMLI crew celebrating St. Patrick's Day in the **Clubroom!** Stop in so that you can see what special Irish dishes we will surprise you with. This is a great time to meet some neighbors and to have a good time right here at home. Where ever you are or what ever you do may the luck of the Irish be with you!

Yoga, Pilates, and Body Sculpting Classes

Our new Yoga/Pilates room is almost done! We will offer several fitness classes to our residents in the near future. We will send out details soon for those of you that wish to participate. Come get fit with AMLI.

We Aim to Satisfy

This month we are rolling out our Resident Satisfaction Survey. The survey will be sent out via email on **March 2nd** to each of you. We encourage all of our residents to participate and welcome your feedback. We strive to make AMLI at Perimeter Place an outstanding place to live!

It's March – Let's celebrate GREEN

- **Want some extra GREEN \$\$\$???** Everyone knows friends make the best neighbors! Refer your friends and co-workers to AMLI at Perimeter Place and you can get a referral check for **\$500** if they lease and say you referred them!
- **Go Green ... Recycling:** We will begin door to door recycling that will get picked up along with the Valet Trash at NO extra cost to you. You would not want to miss out on an easy way to improve the environment.
- **Green products ... Make your Own Cleaning Products:** All you need are a few simple ingredients like baking soda, vinegar, lemon, and soap. Doing this saves money, time, and packaging-not to mention your indoor air quality
- **Green Wise Energy Tips:** Unplug unused chargers and appliances. Set your thermostat and leave it. By turning off utilities it can actually cost you more than if you left it on a set temperature. Don't fluctuate the temperature by more than 2-4 degrees. It takes 1 hour per degree to raise or lower the temperature, so it actually wastes more energy and raises your bill.
- **Save some Green \$\$\$ on Gas ...** Rapid acceleration and braking can lower your gas mileage by five percent around town and 33 percent on the highway, or an average of \$0.55 per gallon. You get less mileage for your money (23 percent less or \$0.67 per gallon) if you drive over 60mph. Savings could amount to: \$1.22 per gallon, or \$634 per year.
