Valentines for Veterans

Help the Chicago AMLI communities show appreciation for those who have served in the military this Valentine's Day. Last year we collected over 400 Valentine Cards for patients at the **Edward Hines, Jr. VA Hospital**. We need your help to brighten the hearts of our heroes again by bringing in your Valentines to the leasing office by **Sunday, February 5th**. This year we hope to collect over 500 Valentine cards. Cards may be handmade or store bought (please omit envelopes). Volunteers from AMLI will be hand delivering your Valentines on **Sunday, February 12th**. Make sure to stop by the office to let your creativity flow at the Valentine Creation Bar!

More Perks for You!

We are happy to announce another addition to our AMLI PERKS program. We have added Earth Safe Cleaning, Inc., a cleaning company with homemade environmentally safe products. They will be offering 20% off Initial Deep Cleaning Service and every 5th cleaning will be 1/2 price. Merry Maids has also joined the program and offers 15% off cleanings or \$100 off ongoing services. All AMLI Perks can be viewed at www.amli.com/perks!

Winter Weather Warning

It looks like winter is here to stay even though it was delayed. Please keep the following precautions in mind while the temperatures are below freezing.

- Open the cabinet doors under your sinks to expose warm air to your pipes and supply lines.
- Turn on faucets to allow a slow drip. But make sure that your drains are functioning properly (i.e., are not clogged) before leaving the water running. If you experience any malfunction, please submit a work order promptly.
- Notify us immediately if you notice a substantial drop in pressure or a complete loss of water at any of your faucets or toilets. This could mean you have a frozen pipe.
- Keep your house warm. The temperature should be at least 68 degrees. The temperature inside the walls where the pipes are located is much colder than the walls themselves. Do not turn off your heat when you are away.
- Be aware of your surroundings and use caution whether walking or driving; use caution at all times.
- Watch for "black ice" – an area of pavement that only looks wet but has a fine layer of ice on it. Remember, areas that have been cleared can thaw and refreeze.
- Report any slick or problem areas to management.
- Dress appropriately. Wear appropriate boots or shoes to reduce the possibility of slipping and falling.
